MESSAGE FROM CHAIRMAN

When I thought to establish an institute to impart education for those who have attachment not only to enter into the brook of knowledge but also to create vast ocean for the welfare of needy children, have faced a series of hurdles and obstacles. What a climax I got, even I can not imagine in my dream, through institution, I have helped those who wanted to be helped. My mission is to visualize those dream into reality, which could make India such a heaven where everybody gets the nectar of Education without any discrimination with distinction. "What is impossible is the mission of the Syadwad Institute of Higher Education & Research to change and transform into possible". Last but not the least I can conclude that it is not the ending of my path but it's a beginning of brook to meet into the river, river into the depth less ocean.

"Loving a child does not mean giving in to all his whims to love him is to bring out the best in him, to teach him to love what is difficult.

As the chairman of this institution, I anticipate the full participation and cooperation of the students and parents to make students education & Training journey memorable during their stay in the Institute.

MESSAGE FROM PRINCIPAL (NURSING)

It gives me immense pleasure to pen these few lines for the college. Nursing is a noble profession & its an honor to belong to this fraternity which is dedicated to the service of mankind. The most important goal of Nursing education is to prepare the students to meet the demands of times. Our endeavor is to encourage every student to realize their true mettle by adopting a humanistic approach towards learning. Hence, nurturing self-esteem is the prime element to enhance improved performance. One who thinks mentally to win has already crossed the hurdle & emerges as a true winner. I wish every student to be a winner.

The importance of Health education has grown more in the services-oriented and globally run world. Our goal is to provide the best nursing professional education, to train qualified Nurses who will understand the present complexities of managing human health as well as preventive, promotive & rehabilitative Health care.

Our faculty is devoted to excellence in teaching & in practical and students are challenged to explore. At Syadwad Institute of Higher Education and Research, Baghpat our aim is to extend students' awareness of the world in which they live by opening them to the diverse heritage of human thought, action, and creativity in health care. There are many who need our help, so let us help them.

I thank each & every staff and student for their contribution for college.

I wish the college great success in future & hope that the college achieves great heights in future.

Wishing the Endeavour all the best.

Prof. (Dr.) Dinesh Kumar
Principal (Nursing)

MESSAGE FROM PRINCIPAL (B.Ed.)

Dr. Lalit Mohan Sharma
Principal (B.Ed.)

MESSAGE FROM HOD (BBA & B.Com.)

"The beautiful thing about learning is that no one can take it away from you." - B.B. King

Keeping the above lines in mind I would like to say that as we step into this new academic semester, filled with hope and dreams of scaling new heights, I wish to reiterate the importance of few things that we have to keep in mind. The purpose of education is to teach budding managers to think and develop a capacity to reason out facts. Learners should keep in mind the importance of planning and prioritizing their time and the effective use of it which are essential to achieve success.

Learner's should always think and review, discover the cause and effect of every event, in which they are involved and they should not surrender or become a slave to youthful fancies and indulgences but they should be steady in their studies. We should Learn to enjoy hard work - particularly our studies. Think wisely, think systematically. Always prepare yourself for next day's learning's. Be very serious and attentive learning sessions.

I would like to conclude by saying that hard work, dedication and perseverance are the most important traits in a person that lead to success. The future belongs to you; your need, therefore, is to prepare yourself for an active participation in the world. This participation demands that you become well informed and hence develop yourself like a pioneer and ultimately grow as responsible men and women and build our future bright like a diamond.

Dr. Sanjiv Kumar Singh
HOD (BBA & B.Com.)

DEPARTMENT OF NURSING

Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain or recover optimal health and quality of life.

Nurses may be differentiated from other health care providers by their approach to patient care, training and scope of practice. Nurses practice in a wide diversity of practice areas with a different scope of practice and level of prescriber authority in each. Many nurses provide care within the ordering scope of physicians and this traditional role has come to shape the historic public image of nurses as care providers. However, nurses are permitted by most jurisdictions to practice independently in a variety of settings depending on training level.

"Nursing is the protection, promotion and optimization of health and abilities; prevention of illness and injury; alleviation of suffering through the diagnosis and treatment of human responses and advocacy in health care for individuals, families, communities and populations." -American Nurses Association.

NURSING LABS

Pre-Clinical Science Lab :

The pre clinical science laboratory is designed with the purpose of helping the students to acquire knowledge of the normal structure and function of various human body systems and to identify any deviation from normal health in order to render effective nursing care. The aim of the laboratory is to educate the students to understand the normal body parts with use of models; specimens etc. and to co relate its function. This will enhance the student's ability to understand the various disease conditions.

Nursing Foundation including Adult Health Nursing & Advanced Practice Lab :

This Lab is aimed at helping the students to acquire knowledge, understanding and skills in technique of nursing practice.
